# Impressions and experiences – voices from the MEDICA halls 2025.

“Every year, MEDICA is the place where people meet. We have guests here from all parts of the world and we enjoy meeting them here in Düsseldorf.”

**TEKNO-MEDICAL Optik-Chirurgie:**  
**Klaus Schnotz**, Area Sales Manager

“Here's where we meet a lot of customers and visitors. We also have a lot of European distributors and partners who come here, too. So, it is a good place to meet them all and catch up with each other.”

**SMOBIO Technology:**  
**Michelle Huang**, Marketing Manager

“MEDICA is the place to be for us because we are meeting all our customers and potential new customers for smart mobility solutions here.”

# Impressions and experiences – voices from the COMPAMED halls 2025.

"You shouldn't miss the enormous number of exhibitors here. It's unbelievable. You can find everything you would ever want ten times over. Enjoy it!"

**Johnson & Johnson:**  
**Matan Konwitz**, Product Manager

"Go to every hall, see every exhibitor. Yes, it's a lot of walking, but it's well worth it. For everything, from suppliers of parts to suppliers of full products, it is well worth the visit. That way, you get a much broader perspective of the entire medical field."

# Exciting supporting program of the 6 forums and 2 conferences

and the 3 special shows.

The **MEDICA START-UP PARK 2025** reached a record level of participation: More than 80 international start-ups showcased innovations in digital health, AI, diagnostics and medical technology, making it one of the most dynamic hotspots of the trade fair.

The **MEDICA SPORTS HUB** showcased a wide range of innovations in health & fitness monitoring, training, regeneration and professional sports. With hands-on devices, expert insights and live activities, it once again served as a dynamic interface between sports, medicine and technology.

The **HOSPITAL OF THE FUTURE** showcased how digital technologies, AI-driven systems and connected infra-structure are transforming clinical workflows. Practical solutions demonstrated smarter processes, more efficient care, streamlined operations and a future-ready hospital environment.
