The exhibitors with the number(s) indicated on the right side of their names are interested in dealing foreign products in home market in Japan, for example as a distributor. The interested products groups are classified as follows:

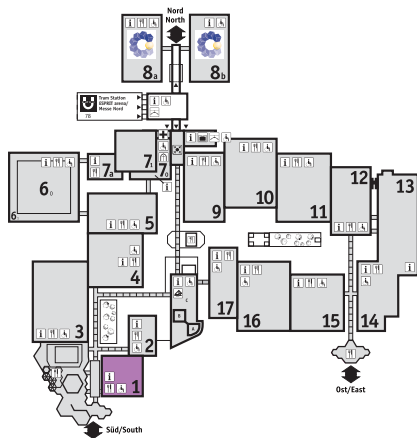

- ① Electromedical equipment / Medical Technology
- ② Laboratory Equipment
- ③ Diagnostics
- ④ Physiotherapy / Orthopaedic Technology
- ⑤ Commodities and Consumer Goods
- ⑥ Information and Communication Technology
- ⑦ Medical Services and Publications

## Company Figures

**Number of employees** 100-499  
**Sales volume** 10-49 Mio US \$  
**Export content** max. 25%  
**Year of foundation** 1983

## Area of business

- Laboratory Equipment
- Diagnostics

## Product Information

- Immuno assay systems
- Enzyme immunoassay (EIA, ELISA, EMIT)
- Heterogenous enzyme immunoassay
- Histology / Cytology reagents

We manufacture detection reagents, *N-Histofine*® for immunohistochemistry (IHC). These products use the UIP (Universal Immuno-enzyme Polymer), which is our patented technology. It provides wonderful staining results, higher sensitivity, lower background and time-saving. We also supply OEM products.

## 5 Nihon Dempa Kogyo Co., Ltd.

- Die-cutting (Manufacturing Equipment)

**SHARP CUTTING QUALITY:**  
Owing to Nogami's ultra-precision grinding technology of minimum clearance less than 0.005 mm, outstanding cutting quality will last for many hours. Regarding the metallic foil being tough to punch, it is capable to stamp out it with neither burrs, nor foreign substances.

- Cables (special cables, diagnosis cables)

When it comes to the Japanese medical and health market, there are few companies who have the same experience and insight that Messe Düsseldorf has. For the past 15 years, Messe Düsseldorf Group has been operating in Japan via its subsidiary Messe Düsseldorf Japan, Ltd., bringing Japanese exhibitors and visitors to the MEDICA & COMPAMED in Düsseldorf and related medical trade shows all over the world. During this time, we have built close relations with all major Japanese medical associations and other industry groups, and we have been continually monitoring the domestic medical and health-related devices market. Naturally, we follow international trends as well. Through our presence at the leading Japanese medical trade fairs, we exchange opinions with industry leaders and players, many of whom are repeat exhibitors at Messe Düsseldorf trade shows.

Based on our in-depth knowledge of the Japanese market and our strong network, we provide support to foreign companies in the medical and health business in the following areas:

- **Market Intelligence:** MDJ provides market studies on the structure of the Japanese medical market and its players. We also monitor trade journals to produce timely market intelligence reports for clients.
- **Trade Fair Participation:** Being a trade fair company, of course trade fair participation is our specialty! We handle all interactions with Japanese trade fair organizers, book the space, arrange booth creation, supply personnel and take care of every detail, including professional follow-ups with visitors and the press.
- **Market Access:** Messe Düsseldorf Japan will put you in contact with potential business partners, arrange meetings, and assist in preparing materials suitable for Japanese audiences. We handle the necessary follow-ups once you are at home, and help take care of your future customers.

In short: *We are here to help you!* Messe Düsseldorf Japan, Ltd.

**Dr. Andreas Moerke**, President

**Mr. Hironori Hattori**, Senior Project Manager

**Mr. Ansgar Jung**, Project Manager

**Mr. Munetoshi Yamamoto**, Advisor

Welcome to the second-largest healthcare market in the world. To promote greater internationalization and to invite more companies from around the globe to invest in Japan, the Japanese Government introduces new attractive incentive programs. With recovery from the Great East Japan Earthquake progressing, it's an opportune time to take advantage of these programs. Call us now to learn more.
