The exhibitors with the number(s) indicated on the right side of their names are interested in dealing foreign products in home market in Japan, for example as a distributor. The interested products groups are classified as follows:

- ① Electromedical equipment / Medical Technology
- ② Laboratory Equipment
- ③ Diagnostics
- ④ Physiotherapy / Orthopaedic Technology
- ⑤ Commodities and Consumer Goods
- ⑥ Information and Communication Technology
- ⑦ Medical Services and Publications

yteshima@teshimaintl.com

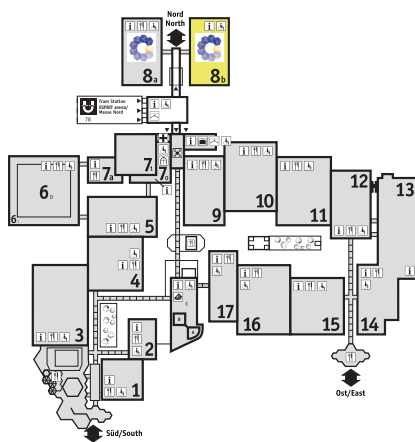

We challenge ourselves to expand the potential of Stainless Steel Tubing globally. Since 1970, we have expanded our business from a small factory manufacturing stainless steel tubing to world-class facilities based in Japan and S.Korea expanding our portfolio from "Medical SS Tubing" to now catering to various industries. With our commitment to constantly growing globally, we have expanded to the United States with our first international marketing office in Boston. State of the art technology coupled with the craftsmanship from years to experience, Teshima Corporation is able to provide our customers with a superior product. Teshima products have acquired the reliability from all of the domestic and overseas customers with its capability to deliver high quality products and service with our belief in the "Make it Happen" attitude. In 2013, Teshima established a new facility in Tatebayashi, Gunma Japan to improve production efficiency, R&D and customer service. As a global company, Teshima will expand its production capability and production traceability IT system at the new facility. Teshima is ready to be YOUR first superior tubing supplier.

Messe Düsseldorf Japan, Ltd.

20 Years' Experience in Japan's Medical Sector

COMPAMED

When it comes to the Japanese medical and health market, there are few companies who have the same experience and insight that Messe Düsseldorf has. For the past 19 years, Messe Düsseldorf Group has been operating in Japan via its subsidiary Messe Düsseldorf Japan, Ltd., bringing Japanese exhibitors and visitors to the MEDICA & COMPAMED in Düsseldorf and related medical trade shows all over the world. During this time, we have built close relations with all major Japanese medical associations and other industry groups, and we have been continually monitoring the domestic medical and health-related devices market. Naturally, we follow international trends as well. Through our presence at the leading Japanese medical trade fairs, we exchange opinions with industry leaders and players, many of whom are repeat exhibitors at Messe Düsseldorf trade shows.

Based on our in-depth knowledge of the Japanese market and our strong network, we provide support to foreign companies in the medical and health business in the following areas:

- **Market Intelligence:** MDJ provides market studies on the structure of the Japanese medical market and its players. We also monitor trade journals to produce timely market intelligence reports for clients.
- **Trade Fair Participation:** Being a trade fair company, of course trade fair participation is our specialty! We handle all interactions with Japanese trade fair organizers, book the space, arrange booth creation, supply personnel and take care of every detail, including professional follow-ups with visitors and the press.
- **Market Access:** Messe Düsseldorf Japan will put you in contact with potential business partners, arrange meetings, and assist in preparing materials suitable for Japanese audiences. We handle the necessary follow-ups once you are at home, and help take care of your future customers.

In short: *We are here to help you!* Messe Düsseldorf Japan, Ltd.

Dr. Andreas Moerke, President

Mr. Hironori Hattori, Senior Project Manager

Mr. Masahiro Hashiki, Project Manager
